HISTORIC PROFILES, MODERN TECH

Our background in historic restoration and remodeling has given us the attention to detail, skill, and appreciation it takes to craft windows that fit seamlessly within historic structures. State-of-the-art gasketing, construction methods, and glazing allow for a range of performance profiles. Glazing options include:

- Traditional single-pane glazing
- Standard double-pane glazing
- Triple pane glazing with Passive House performance

OUR H&H WOODSHOP TEAM
CRAFTING THE HISTORIC
ADDITION WINDOWS

MADE WITH CARE IN PORTLAND

Our windows are built by hand in our Portland woodshop by local craftspeople who we support with living wages and benefits, enabling them to thrive in their craft. We are also strongly rooted in our Pacific Northwest communities, giving back a percentage of our profits to regional schools, community organizations, and trade-based apprenticeship training programs.
